

ICE

Empowering Customers since 1996

**Your Trusted Information
Technology Partner**

TRUSTED IT PARTNER

ICE

Since 1996, **ICE Consulting** has specialized in end-to-end, vendor-independent IT services for the smaller enterprise. For much of that time, we've been providing biotech and life sciences companies with award-winning custom IT solutions.

We know biotech IT.

LET US BE YOUR IT DEPARTMENT... ...OR YOUR IT CONSULTANT

We can provide end-to-end managed IT services, or we can supplement and complement your company's own IT capabilities.

- Comprehensive IT audit and assessment
- Complete system and network design and implementation
- System and network security
- Complete IT maintenance and troubleshooting
- High-throughput computing
- Laboratory Information Management System (LIMS)
- Large-scale data storage and management
- Database development and maintenance
- Server virtualization
- Backup and archive
- Wireless solutions
- 24/7 monitoring and notification
- Disaster recovery/business continuity plan
- Server room build-out and cabling
- Data/voice line and solutions

WHY CLIENTS LOVE ICE

- Reduced cost, increased expertise
- Solutions tailored to your business and budget
- Award-winning customer service
- One stop for all your IT needs

WHAT SEPARATES ICE FROM COMPETITORS

- Transparent and accountable service
- IT management portal designed especially for clients
- End-to-end hardware and software installation and migration
- No long term contract required

"When our company was moving to a new building, ICE not only took care of the new office server-room build-out but also designed and implemented the entire IT infrastructure to our business needs and requirements. ICE did it all... ICE is now maintaining our IT infrastructure."

Vice-President, Sequentia, Inc.
